NEW YORK, Oct. 5.—Believing that the "murder doctors," as they called the board of health physicians, were cutting the throats of their children in a public school in the Williamsburg section of Brooklyn, 1500 women nearly all of them Italians, stormed the school building in a mad effort to reach the little ones today. Before the riot had been quelled several policemen had been seriously injured by the infuriated women and one of the rioters had been arrested.

For several days physicians of the board of health have been examining the eyes and throats of the pupils. A contagious affection of the eyes had spread from the homes of the Italians in the vicinity of the school and the doctors were directed to make an investigation to learn the cause and to exterminate the disease. Many of the pupils upon going to their homes, told

Two conferences held yesterday with the end in view of settling the labor difficulties amicably, were fruitless. Over in San Francisco a meeting was held, attended by delegates and officials from the Alameda County Building Trades Council, the San Francisco and Oakland Millmen's unions, and the State Trades Council, on behalf of the laborers, and by the conference committee of the Employers and Contractors' Association of Oakland, members of the Alameda County Mill Owners' Association, and by various

San Francisco employers. Here in Oakland, last night, at 425 Fifteenth street, the Master Builders' Association met the executive committee of the district council of carpenters and joiners, with no satisfactory result whatever.

In the San Francisco conference, the mill owners offered to arbitrate. They stipulated that the striking millmen should return to work, at the rate offered by the employers before the strike. This proposed rate grants an increase of 12 1/2 per cent, on the former scale of wages. This accepted, the matter would then be submitted for arbitration, to a joint body of employers and members of the millmen's union. In case this body should decide in favor of the strikers, the mill owners agree to pay the full demand of 25 per cent from the date on which the strike was called. The conference, when a vote was called for, decided in favor of this plan, which will be submitted to the Building Trades Council for approval and adoption. Other than this proposal, and a general discussion of the disturbances, no action was planned.

FLY FROM
FIREChurch of the Sacred
Heart Is Badly
Damaged.

SAN FRANCISCO, Oct. 5.—A fire which menaced the whole Western Addition for several hours broke out in the parochial residence attached to Sacred Heart church, at the corner of Fell and Fillmore streets, at 5 o'clock this morning, and spread with such alarming rapidity that the priests of the parish and the Dominican sisters attached to the school, barely had time to escape from their beds before the flames enveloped them. The priests' house is a total loss, the church of the Sacred Heart is badly damaged by the flames and the parochial school is gutted.

Fearing the spread of the flames to the wooden residences that surround the church, the fire department, called out by three alarms, worked heroically. They succeeded after hours in confining the fire to the parish buildings. No one was hurt in the fire. The flames spread so fiercely and rapidly that Rev. Father McQuade, the pastor, and the curates associated with him, had hardly time to leap from their beds and rush from the house. They had no time to save anything, and the priceless records, books and relics belonging to the parish, as well as their personal belongings were consumed.

GEORGE HERBERT,

Who says he can positively identify the bank robbers and murderers.

detectives believe that they have in custody the men whose murders for loot have three times startled the city.

First came the Pfizner murder, then that of Friede and lastly the outrage at the Japanese bank.

TALLY WITH THE MURDERERS' DESCRIPTION

Two American depositors in the bank were arrested last night by Detectives Tom Gibson and Wren. It was announced at headquarters that the suspects were questioned and released.

These two depositors tally with descriptions of the murderers. It is now learned they have not been released and will not be unless George Herbert, the man who says he can identify the murderers, says positively they are not the men who went into the bank at noon Wednesday.

Even if Herbert fails to recognize the men they will not be free from suspicion. They tally too closely with the requirements of the men the entire police force is bent on apprehending.

THE SUSPECT HAD ROOM OPPOSITE THE BANK

It was learned that one of the suspects had a room opposite Pfizner's place on McAllister street during the week before the shoe merchant's awful death. Further, it was learned that this man, when opening an account at the Kimmon Ginko, gave a fictitious address and that in reality he lodged across the street from the bank, having secured a room with a bay window, from which the bank could be closely watched.

When confronted with this evidence the men said they had trouble with the landlady on McAllister street and on that account left for the O'Farrell street location and for the same reason gave false addresses at the bank so as to throw her off the trail.

There are other reasons for suspecting the men whose newly opened accounts at the Japanese bank alone make an excellent clue.

The police agree that the Pfizner, Friede and bank murders are probably the work of the same men and that the murderers are not experienced criminals.

THREE TORNADOS STRIKE NEW ORLEANS

NEW ORLEANS, Oct. 5.—Three separate tornados struck New Orleans and vicinity today causing loss of life and great property damage in sections which a week ago today were more or less devastated by the Gulf hurricane.

The first tornado was at Pontchartroula, a fifty miles north of here the second in New Orleans and the third near Biloxi, Miss., half way between here and Mobile on the Gulf coast.

The tornado at Pontchartroula struck the southern end of the town about 7 o'clock in the morning. George Hawes was killed in his home, which was blown down and his wife and four children were badly injured. Three negroes also were reported killed at Pontchartroula.

MANY ARE INJURED.

The second tornado appeared in New Orleans shortly after 8 o'clock ripping a narrow path through five miles of the city's residence and business section and doing \$500,000 damage. No lives were lost here but one negro was fatally injured by a freight car overturning upon him and half a hundred other persons were injured eleven of whom were taken to hospitals.

The third tornado passed seven miles northwest of Biloxi, Miss. where it overturned an engine and three cars belonging to the Dantzler Lumber company, slightly injuring the engineer and fireman. Immense trees which withstood last Thursday's hurricane, were uprooted

in this section. The fact that today's tornado, which followed so closely last week's catastrophe was responsible for reports immediately following the storms that about twenty lives had been lost in the city and surrounding country.

NEW ORLEANS, Oct. 5.—A tornado passing through five miles of the residence and factory section of New Orleans today injured at least a score of

persons, and did fully \$500,000 damage.

Half an hour after the tornado had left the city traveling in a northerly direction, a telegram from Hammond, La., 50 miles north of here, said that four persons had been killed in a tornado at Pontchartroula a town near by. A great property damage was also reported.

A report was brought in from the neighborhood of Lake Pontchartroula,

outside of the city limits, that lives had been lost there. Later the death of a man named Howes was reported at the lake but these reports lacked confirmation.

Although several deaths were reported in New Orleans immediately after the storm, investigation showed that probably not a life was lost here.

Many of the injuries occurred near Roberts street and the river front where the Columbia Oil Mill and the Jefferson sawmill were badly damaged.

A peculiar feature of the disturbances in the city was the fact that few persons within half a mile of the tornado's path knew that there had been a

SEEKING SITE FOR A PLANT

Modesto Man Would Locate Cyanide Mill Near Standard Oil Works.

RICHMOND, Cal., Oct. 5.—H. R. McGuinn, of Modesto, secretary of the Oakland Ore. Purchasing Company, was in Richmond yesterday in the interest of his company. Mr. McGuinn is seeking a location for a cyanide plant for his company. The company is engaged in the business of purchasing ore and concentrates from the mines and with a plant here will reduce the same by cyanide process.

Cure for Fits on Trial

Here is the fastest cure ever made to suffer with epilepsy or fits. Just deposit \$1.00 with Owl Drug Co. and get a bottle of Elixir Kosine. If it does not help you and show that its continued use will effect a complete and lasting cure, get your money back. Owl Drug Co. will take all the risk. They are well known and reliable, and this offer they make will be faithfully carried out. Elixir Kosine will cure epilepsy, epileptic fits, and all nervous twitching and spasmodic affections, no matter what the cause. If it does not cure, it is the only known cure for fits. It is the remedy for this disease, and it cures you nothing unless it cures. Price \$1.00. Mail Orders filled. The Kosine Company, Washington, D. C., or Owl Drug Co., Thirteenth and Broadway.

The company is desirous of locating at Richmond, adjacent to the Standard Oil plant, that they may get full oil at a minimum cost. The shipping facilities also offered by Richmond appear to the management of this concern. The property of the old Richmond Foundry Company was inspected by Mr. McGuinn while here, and he will open negotiations with C. Cornell of San Rafael, trustee for the property, with a view to purchasing the same.

"My lord," said John Hopkins, when arraigned before Judge Kennon today on a charge of malicious mischief, "I want a fair British trial. I want twelve men to decide my case, Concher know." Funston Says Work of Disarming Cuban Rebels Will End in Three Days.

HAVANA, Oct. 5.—Brigadier-General Funston said this morning that the process of disarming the insurgents will be completed in two or three days. The disarmament is finished in Puerto Principe and is almost completed in Santiago. There is slight delay in Havana province because General Asbert's followers are largely scattered. It is expected that they will be concentrated today near Guines. A detachment of thirty-five marines has been sent to Guines to keep order pending the disarming of Asbert's men.

WIFE BEATER GOES BACK TO INFIRMARY

Claiming that her husband, a paralytic, had beaten her, and exhibiting black and blue marks on her arms to substantiate her statement, Mrs. Charles Miller appeared at the Receiving hospital last night and begged Warden J. M. Page to have the man returned to the County Jail, from which place he escaped yesterday. The woman was told to advise her husband to appear at the Receiving hospital this morning, because a doctor wanted to see him. When Miller put in an appearance he was immediately taken into custody and sent back to the infirmary. His wife stated that she understood he had struck a nurse there, and for that reason left the institution.

ROSES WILL BE GIVEN AT MASS

Feast of the Most Holy Rosary at St. Mary's Church Sunday.

Next Sunday the feast of the most Holy Rosary of the Blessed Virgin Mary will be observed with an exceptional solemnity in Saint Mary's Church, corner of Jefferson and Eighth streets. Instead of beginning at 10:30 o'clock, solemn high mass will be sung at 11 o'clock and will be preceded by the blessing and distribution of roses. Immediately after the solemn high mass there will be a rosary procession through the church and benediction with the Blessed Sacrament.

The celebrant of the mass will be Reverend Robert Benson; the deacon, Reverend William Brookhage; the sub-deacon, Reverend John Doran.

Forty acolytes from the Christian Brothers' school connected with Saint Mary's Church will take part in the procession, as well as one hundred young ladies and girls from the Sisters' school connected with the parish. The singing during the procession and benediction will be by the congregation, in obedience to the order of the Holy Father, Pope Pius the tenth.

During the solemn high mass the choir will be under the direction of Professor Adolf Gregory, and will render Hajdn's "First Mass," assisted by Miss F. Shean, as soprano; Miss M. Wright, as contralto; Louis Spuller, as tenor, and Jacques Bonvin as bass. At the Offertory, Mrs. C. N. Barlow will sing Millard's "Ave Maria." Mrs. Gregory will preside at the organ.

In the evening at 7:30 o'clock the usual first Sunday of the month devotions will be held, consisting of Rosary, answers to questions from the Query Box, and benediction. There are special devotions at Saint Mary's each evening during October.

UNDERWOOD'S GOOD WORK AT LIBERTY

Franklyn Underwood, the matinee idol, and popular actor, is scoring another of the triumphs at Ye Liberty theater this week as Hosea Howe in "Peaceful Valley." He is an excellent follower of that grand old actor, Sol Smith Russell, for whom this clever play was written. Hosea Howe is the whole thing in this show, as he is constantly in the center of the stage. Mr. Underwood knows how to play on the heart strings of his audience. The various changes in Hosea Howe's career are well brought about by this sterling young actor.

Mr. Underwood does his best work in the first act. As the country waiter he is the real article.

This sterling young actor has an offer from a prominent manager on Broadway, New York, to go to the metropolis and begin a metropolitan career.

BOUND OVER ON CHARGE OF ATTACKING GIRL

For an alleged attack on 15-year-old Myrtle Cary, W. E. Jones was held over to the Superior Court this morning by Police Judge Smith and his bail was fixed at \$2000. The young girl, her sister and mother, have been living at Jones' home in Emeryville. It is alleged that during Mrs. Cary's absence Jones attempted an assault. The accused man denied the allegations made by Miss Cary and her sister.

UNION LETS THEM TAKE LOWER WAGES

TORONTO, Ont., Oct. 5.—The wood, wire and metal workers' International union changed their rules to enable wood lathers to accept a lower wage in learning metal lathing. The union will require all members of New York union not affiliated with the International to pay full initiation fees when they join local unions outside of that city. This is expected to force the independent bodies of New York to affiliate with the organization.

CHINAMEN CHARGED WITH VAGRANCY

Upon returning to Oakland after promising to go away and never show his face in this city again, Hong Shing, a rambling Chinaman, was charged on a charge of petty larceny, it being claimed that he stole a lantern from a Chinatown mercantile. This morning the Chinaman was sentenced to three months in the city prison by Police Judge Smith. Ah Yip, Ah Toy and Ah Yum, three Chinamen accused of being vagrants, pleaded guilty to the charge and were sentenced to sixty days in the city prison.

LANDLORD TAKES BOGUS CHECK FOR RENT

A fictitious check swindler is operating in this city and his first victim was Charles Toubert of 618 Eighth street. The phony checkman went to Toubert's place and obtained a room. He tendered a check on the Merchants' and Planters' bank for \$10 when paying for the room, and was given the change in cash. Toubert, however, discovered the swindle until after his guest had left. The theft has been reported to the police.

ONE HOLD-UP IS REPORT

Police Believe Thug Who Shot Patrolman Hodgkins Left the City.

But one report was received last night of a holdup in this city, and the police are now confident that the daring and desperate thug who robbed at many houses and seemingly closed his career in this city by attempting to end the life of Policeman Wilfred L. Hodgkins last Monday night, has left the city, fearing capture. After his last crime the residents and police became aroused and everything was done to effect the capture of the bold footpad. Extra patrolmen were assigned to the district in which he had been working for two weeks, but thus far nothing has been seen or heard from the man. The placing of twenty-one special officers of the police force by the commissioners yesterday afternoon was the direct result of the ineffectual reign of crime in this city, as Mayor Jett and the other commissioners are determined to protect life and property and scare away the thugs and footpads who have threatened to operate here.

Policeman Jorgensen has reported to headquarters that a teamster named O'Brien, in the employ of the Grayson & Owens Company, was held up about 3:15 o'clock this morning at the point of a revolver and relieved of \$3.50.

O'Brien was driving down Market street when the footpad stepped out in front of his team and ordered him to hold up his hands. The teamster followed instructions and delivered over his coin. Only a slight description of the thug could be obtained from O'Brien.

Patrolman Hodgkins is still suffering considerable pain, but his ultimate recovery is assured by the attending physicians. The wound is a serious one, however, and it will be some weeks before the patient will be about.

Reports of alleged holdups and burglaries are still being received at the police office, but investigation shows them to be false and generally myths, from the minds of an excited populace.

BOOKS FOR CULTURE READING LITTLE USED

Superintendent of Schools M. Clymonds has issued the following explanatory circular to the principals and teachers of the local school department:

"Arrangements were made last year with the library trustees to secure for use of the schools, a sufficient number of books to provide for culture reading of the sixth grades, from the library. These books were selected from a list submitted by the teachers of the department. Notice was heretofore given by circular that the books were in the library ready for use. I am credibly informed that only about one book in four provided for the use of these grades, is now in use. It must be that the teachers misunderstood in regard to these books. Sometime ago a circular was sent giving directions and methods for securing the books from the library with the teachers. Will the principals, in conjunction with the teachers, take this matter up and so arrange it that these books can be put in use at once. If we succeed well with these books, year by year the library trustees will add books to the library so that all of our upper grades may be accommodated."

OFFICERS ELECTED BY KENNEDY CLUB

Last Wednesday evening at the regular meeting of the Kennedy Club Robert S. Kennedy of Oakland was elected president, Miss Naomi Kennedy of Hayward vice-president, Gano G. Kennedy secretary, and William S. Kennedy treasurer. The constitution and by-laws were adopted and a prospective program, embracing various entertainments and lectures, was mapped out for the winter. The entertainment committee consists of Mrs. R. S. Kennedy, Mrs. Albertus Kennedy and William S. Kennedy. Regular meetings of the club are on first and third Wednesdays.

Hot Air, Both Artificially and Naturally

Say, what's the matter with the weather? Just when we get our overcoats up on the main deck, along comes a sizzling hot draught, and the call is for dusters and thin clothes. Yesterday in Los Angeles it was the hottest day in 21 years. Here, it was pretty warm, but not so hot; but you pretty warm, but not so hot; but you could wear the kind of clothes we sell. Say—have you noticed our new window trimmer? Every seven years they say a man changes his whole life, he is a new one or a dead one. Our other window trimmer was a dead one, so we got a new man, one with new looks and new ideas. He's going to change the whole store, or the windows, and then we are going to just keep new goods on display all the time. Every day or so the windows will be changed and new fall things to wear will be shown so keep coming around and see what we are showing. You will think you are in front of a New York shop when you see this store all fixed up so fine and dandy. Guess the next thing will be a new office boy. Gee, what a good thing a contract is—sometimes. Well, so long—see you tomorrow.

storm and the local United States weather bureau received the first intimation of a tornado from a newspaper. MUCH DAMAGE.

Forecaster L. M. Cline said the tornado probably was a local disturbance. Building up over the New Orleans Furniture Company at the foot of Belle Castle street, the Jalal roller skating rink and the gas works at the corner of Pryor and Magnolia streets. At the gas works a stand-pipe was blown down.

Other buildings damaged included the St. Stephens church (Roman Catholic), a market house in process of construction at Toledano and Saratoga streets, and the two mills previously mentioned. About twenty-five houses and cabins were either wrecked or blown down completely.

WOMAN AND CHILD HURT.
A woman and child were injured by the blowing down of a building at First and Magnolia streets, and a negro in Douglas parish was reported to have been picked up bodily by the wind and carried several feet, being badly bruised. The tornado entered the city near Audubon Park, having crossed the Mississippi river from the farming country opposite that point. The wind was accompanied by a low-hanging cloud and a heavy rain.

It traveled northwest until it reached the fine residence portion of the city. St. Charles and Napoleon avenues, the damage was the lightest done in part of the tornado's course. From St. Charles avenue the wind proceeded straight ahead to Marigny and Carondelet streets, where it veered sharply to the northward and in this direction passed out of the city.

The path of the tornado through the city was from forty to fifty feet wide. This narrow zone was strewn with bricks from demolished chimneys, detached boards, uprooted trees, fallen telegraph poles and an occasional roof. It was the falling of these objects that caused most of the injuries.

CHARGED WITH THEFT OF TWO QUARTS CREAM

For the alleged stealing of two quarts of cream, M. Silva has been arrested upon a charge of petit larceny, sworn to by J. A. Silvera, a milk and cream dealer. Silva asked for more time to plead when his case was called in department One of the police court this morning, and the matter was continued for two days.

THE CZAR.

The Czar is below medium height and, though he does not look it, is something of an athlete. He is a very ordinary-looking average man. Pedestrianism is, in fact, the exercise that appeals to him most. He does not fear death for himself, but he believes that God intended him to rule, and therefore he avoids unnecessary risks. The tales that are circulated periodically to the effect that he trembles for his safety throughout the living day are as untrue as they are absurd. Nicholas II is also a fair actor. When he was over in England some years ago he patronized the Thames frequently, going down to a certain boat-house unattended and hiring a single sculler by the hour. Now and again he cries, "He finds no pleasure in pomp and ceremony, and here he tries to consult his own wishes. He would cheerfully vacate the throne tomorrow."—Cassell's Saturday Journal.

ATTACK ON MODESTY RESENTED BY PEEK-A-BOO WEARERS

CAMPUS ATTIRE NEVER GAUDY

Phoebe Binney Declares College Women Always Dress Properly.

BERKELEY, Oct. 5.—The edict that gone forth from Dr. Edith Brownhill, women's lecturer in hygiene, forbidding the wearing of "peek-a-boo" waists appears to meet with considerable condemnation on the part of the college girls. The more prominent co-eds resent the imputation cast upon the modesty of the women college students though they admit that some of the "peek-a-boos" should be banished from the public gaze. They declare, however, that such "peek-a-boos" were not worn by college girls.

MISS PHOEBE BINNEY,
Who says the coeds of University of California have a perfect right to wear peek-a-boo shirt waists and polish their finger nails.

MISS BINNEY'S VIEWS.
Miss Phoebe Binney, one of the most prominent graduate students and social girls of the University of California, who, during her senior year, was a leader among the college women in her capacity as president of the Associated Students, declares that she sees nothing improper in the mode of the university girls' dress.

I have been in close touch with nearly all the college women the last four or five years," said Miss Binney today, "and it seems to me that they have always dressed in a proper manner. I don't be-

popular women students, said: "I do not believe that Dr. Brownhill was justified in making such a general attack upon the 'peek-a-boo' as worn by the college girls. There are undoubtedly some 'peek-a-boos' that are particularly obnoxious, but such garments would be frowned upon by the college mates of the girls that dared to wear them. 'College girls are almost invariably modestly dressed and few paint. Few have either the time or the inclination to put on elaborate polish upon their finger nails.'"

Mrs. Grace Northrup said: "Many of the peek-a-boos offend against modesty and good taste I hardly think, however, that any such sweeping condemnation as was made by Dr. Brownhill is warranted. Modesty is largely a matter of convention, and as long as the girls dress in the right way at the right time, it can hardly be said that they have committed an offense against modesty. What is proper in summer is improper in winter, and a ball dress could hardly be worn on the streets."

GRASS FIRE EXTINGUISHED

Area Half a Mile Square Back of Claremont Country Club Burned Over.

A grass fire which raged for a day and a night in the hills back of the Claremont Country Club was put out yesterday by back-firing and smothering it. The flames were presumably started by a party of campers living in the vicinity. The tents and equipments belonging to them were burned, but it was impossible to identify them, or to fix the responsibility.

The fire traveled eastward, back of Lake Temescal, burning an area about half a mile square. Although there was danger of losing feed and stock, the farmers of the area were able to confine it to open fields, until the blaze was spent.

their parents that the "murder doctors" wanted to cut their throats, and frenzy that does not listen to reason spread among the mothers of the pupils.

MARCH ON SCHOOL.

Today they decided to make an investigation in a body and marched to the school building, 1500 strong. Teachers who were warned of the approaching trouble locked the doors and the windows of the building and sent a call for assistance to a near-by police station. Before the police had arrived the women rushed toward the main entrance of the school and, finding the entrance barred against them, made frantic and determined efforts to batter down the doors.

One panel had been smashed when the vanguard of the police squad appeared upon the scene and sought to put a sudden end to the trouble. The women turned upon the policemen, tore their clothes, scratched their faces and put them to rout before a detail of fifteen more officers reached the scene. When the reinforcements came nearly one hour was required to drive the rioters from the square.

When the women who were arrested were arraigned in the police court and asked by the magistrate to account for their conduct, one replied:

"What would you do if you knew the 'murder doctors' were cutting the throats of your children? I will not let them kill my little ones."

Several serious riots of a similar nature to that of today have occurred in various parts of the city. In every instance the trouble has been in districts inhabited almost exclusively by Italians and Hebrews.

As a result of the latest trouble it was announced that the examination by the health officers in the public schools will be temporarily discontinued.

9 LOCAL UNIONS MAKE DEMANDS

(Continued from Page One)

scales present, to agree to a graded scale of wages. They argue that there are many carpenters more or less inefficient—"earthquake carpenters," they call them—whom the contractors are willing to pay the same wages given a skilled workman.

The employers propose to have three grades, first, second and third. The first grade men will be paid \$5 or \$5.50, the other grades will be paid proportionately, the minimum wage to remain at \$4. Each man will be allowed to grade himself, according to ability, but must obtain a certificate of efficiency from the district council.

This the unions will not agree to. They argue that to allow a second class workman to draw lower wages, would result in throwing the highest price workman out of jobs. They dispute the contention of the employers that the demand would regulate properly the employment of the best-paid men.

Unless the demands of the Carpenters' Union are met in full, the entire force of 1100 men will be ordered to strike on October 22. Already a large number of men are out. Acting Business Agent C. E. Elder, of the Building Trades Council, this morning ordered all the carpenters working with the members of the International Hodcarriers' Union, who are filling the places of the Laborers' Protective Association, now on strike, to leave their places.

The Laborers' Protective Association is the Alameda County Hodcarriers' Union, allied with the Building Trades Council. When, some time ago, this union struck, the employers, mostly Berkeley men, secured members of the International Hodcarriers' Union, hop-

CONSUMPTION CURED

Mrs. Henke, known as the handsomest woman in Milwaukee, states that after physicians had failed to give her any permanent relief from that dread disease consumption, she tried Duffy's Pure Malt Whiskey and has been entirely cured.

Mrs. Henke thankfully writes: "For six years I have been ailing with lung trouble, which kept growing worse until my case became serious. I employed four different local physicians, giving each a fair trial, but with very little success. During this period I was troubled with dizziness, cold sweats, cold hands and cold feet, coughing, chills and hemorrhages, which clearly indicated consumption. My physicians suggested that I move to a different climate. I tried several widely advertised medicines, but with no good results, then I tried Duffy's Pure Malt Whiskey. After using one bottle my condition began to improve. I continued to use this remedy for two years and am now in excellent condition. I used to be so weak that I could hardly stand up. I am now able to do all my household work, including washing. This letter is given of my own free will and that it may, if desirable, be used publicly that other sufferers may learn of my wonderful cure. I am a lifelong resident of Milwaukee, and the mother of five children.—MRS. ANNA HENKE, Milwaukee, Wis., April 12, '06.

Duffy's Pure Malt Whiskey

If you wish to keep strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions, and take no other medicine. It is dangerous to fill your system with drugs; they poison the body and depress the heart while Duffy's Pure Malt Whiskey tones and strengthens the heart action and purifies the entire system. It is the only whiskey recognized as a medicine, and contains no fusel oil. This is a guarantee. Duffy's Pure Malt Whiskey has stood severe tests for fifty years and has always been found absolutely pure and to contain great medicinal properties.

CAUTION.—When you ask your druggist or grocer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's the one absolutely pure medicinal whiskey and is sold only in sealed bottles; never in bulk. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Price \$1.00. Medical booklet and doctor's advice free. Duffy Malt Whiskey Co., Rochester, N. Y.

ing thus to break the strike by pitting union against union. The Building Trades Council, however, will support the old organization. It is for the purpose of coercing the employers into granting the demands of the Laborers' Protective Association, that the carpenters were to strike this morning. This action affects only those in the Carpenters' Union employed with the members of the International Hodcarriers' organization.

WILL GRANT DEMANDS.

The demands of the Iron Workers' union, calling for an increase of from \$5 per day to \$5.50, will be granted. On August 7 the men following this trade were given an increase of from \$4.50 to \$5. On Wednesday, September 26, the union voted in favor of the demand calling for \$5.50. Notices were sent to the various master workmen on Friday and Saturday, the new schedule to go into effect on October 1. Tomorrow will be the first pay day following the limit set, and some of the employers intend to pay the demanded amount, without demurrer. It is believed that the rest will follow suit, other than suffer a strike to be declared.

It was divulged at last night's conference in San Francisco that the millmen of that city will make the same demands, the rejection of which caused the Oakland strike. The San Francisco millmen made its demand, receiving \$4 per day, an advance of 12 1/2 per cent over the amount paid to the Oakland men. The Alameda County Plaining Mill Owners' Association offered to pay their employees the same rate existing in San Francisco. The union was obdurate, striking rather than accept less than full increase of 25 per cent. The San Francisco millmen have now demanded an equal amount per day to that for which those on this side of the bay are striking, viz: \$4.50. Unless the San Francisco mill owners agree, that city will be involved in the same labor difficulty that Oakland is; the millmen will walk out.

next Monday, just one week later than the Alameda county strike began. The master plasterers have determined that hereafter they will take no part in the actual work for which they contract, the labor to be performed entirely by the hired help.

THE REASON Why Owl Drug Co. Continues to Recommend Vinol.

First. Because it is not a patent medicine and it contains besides tonic iron all of the medicinal curative elements of cod liver oil actually taken from fresh cod's livers, but without a drop of oil to nauseate and upset the stomach and retard its work. Therefore, wherever old-fashioned cod liver oil or emulsions will do good, Vinol will do far more good.

Second. Because Vinol acts first upon the stomach, creates a healthy appetite, strengthens and tones up the digestive organs, purifies and enriches the blood, and, in a natural manner, restores health and strength.

Third. Because Vinol contains no injurious drugs to react upon the system, every ingredient being named on the label a patient knows exactly what he is taking.

Fourth. Because we never sold anything in our store that gave such universal satisfaction for old people, weak, sickly women and children, nursing mothers, and to build up the system after a severe sickness, and for relieving hacking coughs, chronic colds, bronchitis and all throat and lung troubles.

Try Vinol on our guarantee. The Owl Drug Company.
Note.—While we are sole agents for Vinol in Oakland, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

CAMPAIGN ON IMPURE FOOD

Arrests Liable to Follow Persistent Complaints to the Health Board.

Drastic measures will soon be resorted to by the health officials of this city in the sale of adulterated foodstuffs and tainted meat continues as it has in the last few weeks. Investigations are being made daily and many of the stores of this city are under surveillance. Reports are received daily at the health office in regard to the selling of bad fruit, tainted meat and a poor quality of milk. Each case has been investigated and as soon as sufficient evidence can be obtained the offending dealer will be placed under arrest and prosecuted.

Not long ago Police Judge Smith fined a milk dealer the sum for selling milk which was not fit for consumption. The authorities are determined that foodstuffs, as well as meat and milk, must be of the best quality. In some cases meat has been condemned and confiscated by the health officials. Dr. E. N. Ewer, health officer of the city, has pointed in the crusade and has the following to say about conditions in this city:

"Few people realize the danger of partaking of impure and adulterated food. Could this evil be controlled much of the sickness in this city would disappear, especially in the cases of infants and children. At present the health department is severely handicapped by a lack of facilities for the testing of foodstuffs and the analysis of suspected canned goods and condiments, but we are doing our best to compel merchants to observe the law. Any person dealing in produce, canned goods or meat not fit for human consumption will be vigorously prosecuted, as I consider the sale of impure food one of the most serious crimes with which the authorities have to deal."

"This is especially true in regard to milk, wines and candies. The adulteration of milk many cases of sickness in infants and young children are traceable, as is also the case with candies. Much of the cheaper candy sold is manufactured of white earth, with just enough sugar in it to disguise its true nature, and when eaten by children it is enough to cause illness in even the strongest. The same is true of wines, which are often used in cases of serious illness, when adulteration of supposedly pure wine amounts almost to murder."

5 SHOTS FIRED; POLICE AROUSED

William Woods Empties Pistol at Man Thought to be Burglar.

At 3 o'clock this morning a man was heard on the back steps of the residence of W. Stockman at 579 Eighteenth street. Women in the house who heard the intruder raised an alarm. Their screams were heard by William Woods of 572 Seventeenth street, who ran out of his house and fired five shots at a man he saw running down Eighteenth street, near Grove. An alarm was sent to the city hall and Captain Peterson and other officers hurried to the scene. They reached there just as the last two shots were fired, but they were unable to find any trace of the supposed robber. They searched houses and basements in the vicinity, but could find no one.

SEVEN MEET DEAD IN A SUBWAY EXPLOSION

Twelve Others Badly Hurt When Workman's Lantern Came in Contact With Gas Main.

PHILADELPHIA, Oct. 5.—A terrific explosion of illuminating gas in the subway of the Philadelphia Rapid Transit company, under construction at Sixth and Market streets today resulted in the death of six men, the injuring of a dozen others and caused property damage that will run into the thousands of dollars.

Besides the six men known to be dead, it is said that at least three others are buried under tons of earth in the wrecked subway. Extraordinary efforts are being made to clear the excavation but it will be late in the day before this can be accomplished.

The explosion occurred shortly before 7 o'clock and in consequence of the early hour but a few workmen had gathered. The explosion was caused by a leak in a city gas main that had been improperly repaired last night. The escaping gas formed a pocket in the subway and it is believed that a workman carrying a lantern into the great hole ignited the gas.

The corner of Sixth and Market is one of the busy sections of the city, but

ASTHMA AND CATARRH SUFFERERS CURED BY TOXICO

Every Symptom of These Diseases Entirely Eradicated

NEW YORK, Sept. 27.—A most important discovery in medical research is that of Toxigen, the Vienna formula, which cures all diseases of the respiratory organs, except consumption. It is acknowledged that catarrh and asthma are the forerunners of the "great white plague," and the adoption of preventive measures is at present the best means of checking its spread. In order that catarrh and asthma sufferers may rid themselves of these dangerous diseases, The Toxigen Laboratory, 1289 Broadway, New York, will send a sample treatment of Toxigen, free by mail, to all who write for it.

A Reasonable Plea For The Stomach

If Your Stomach Is Lacking in Digestive Power, Why Not Help The Stomach Do Its Work—Especially When It Costs Nothing To Try?

Not with drugs, but with a reinforcement of digestive agents, such as are naturally at work in the stomach? Scientific analysis shows that digestion requires pepsin, nitrogenous ferments, and the secretion of hydrochloric acid. When your food fails to digest, it is proof positive that some of these agents are lacking in your digestive apparatus.

Stuart's Dyspepsia Tablets contain nothing but these natural elements necessary to digestion and when placed at work in the weak stomach and small intestine, supply what these organs need. They stimulate the gastric glands and gradually bring the digestive organs back to their normal condition.

Stuart's Dyspepsia Tablets have been subjected to critical chemical tests at home and abroad and are found to contain nothing but natural digestive agents. Chemical Laboratory, Telegraphic address, "Difidindo," London. Telephone No. 1029. 20 Cullum St., Fen-church St., E. C.

I have analyzed most carefully a box of Stuart's Dyspepsia Tablets (which I bought myself at a city chemist's shop for the purpose), manufactured by the F. A. Stuart Co., Temple Chambers, London, E. C., and have to report that I cannot find any trace of vegetable or mineral poisons. I am of opinion that the tablets, I am of opinion that they are admirably adapted for the purpose for which they are intended.

(Signed) John B. Brooke, F. R. C. S. There is no secret in the preparation of Stuart's Dyspepsia Tablets. Their composition is commonly known among physicians, as is shown by the recommendations of 40,000 licensed physicians in the United States and Canada. They are the most popular of all remedies for indigestion, dyspepsia, water brash, insomnia, loss of appetite, melancholia, constipation, dizziness and kindred diseases originating from improper digestion and assimilation of foods, because they are so thoroughly reliable and harmless to man or child.

Stuart's Dyspepsia Tablets are at once a safe and powerful remedy, one grain of which will remedy a case of indigestion (to digest 3000 grains of steak, eggs and other foods). Stuart's Dyspepsia Tablets will digest your food for you when your stomach can't.

Ask your druggist for a fifty-cent package or send to us direct for a free trial sample package and you will be surprised at the result. F. A. Stuart Co., 61 Stuart Bldg., Marshall, Mich.

DOG CAN BITE LEGALLY IF BONE IS TOUCHED

BALTIMORE, Oct. 5.—Jury in the Criminal court today decided that any one who interferes with a dog while he is eating a bone does so at his own risk. David David Howe was before the court on the charge of maintaining a nuisance by keeping a vicious dog, his arrest growing out of the allegation that a child was bitten. The child, it was testified, interrupted the animal while it was gnawing a bone. When Mrs. Mary Smith, a neighbor, told the stand she explained the situation in a few words. "Gentlemen of the jury," she said, "if you were dogs and I were a dog, and somebody came along and tried to get a bone from us, we would bite, just like Mr. Howe's dog did."

Her argument was effective, and Howe was acquitted.

C. C. BOYNTON MAKES DEFENSE

Tells Why He Does Not Get Out
of the Congressional
Fight.

Charles C. Boynton, in an interview this morning, stated:

"Mr. Brunk rejected my proposition to submit the question of which of us should remain a candidate before the people of this district to the county committee of the Union Labor party and the heads of the largest unions in the district."

"I am now in the fight to stay. My first desire in this campaign has been to defeat Joseph Knowland. He is on record. To insure this the people should consolidate behind some one man. I have never insisted that that man be me. The delegates from this Congressional district to the State convention of the Independence League desired to nominate me September 6."

"At the request, the district convention was held in order that the candidate might be secured who was satisfactory to union labor. My friends and I interviewed all the prominent labor men that we could reach and after they had considered the matter they were unanimous in this declaration that I should be the nominee. I accepted the nomination, but I was still ready to step down and out and back of any man union labor might bring to the front and unite on. I made this declaration publicly and privately. I took a trip to Vallejo and submitted it to the most prominent union men that I could meet. Still they all said 'stay in the fight. We know of no man whom union labor would support more untakenly than you.'"

"About this time I met Mr. Brunk. He claimed that his principles were substantially those for which I am battling; that his great desire and ambition was to accomplish the defeat of Mr. Knowland. In conversation he argued with me that our simultaneous candidacy was unfortunate for the cause for which he declared that he as well as I was fighting. He further agreed with me that it was the duty of one or the other of us to withdraw and he agreed that the one of us who in the weaker candidate before the people should be the one to withdraw. But we could not agree between ourselves as to which of us was the weaker candidate and after that we were in duty obligated to withdraw."

"We spent several hours Monday evening in this conference and realizing the uselessness of our agreeing between ourselves as to which of us should withdraw I, Tuesday morning, in writing, submitted my proposal to Mr. Brunk that he and I agree to leave the question with official representatives of union labor in this district, viz., the county central committee of the Union Labor party and the presidents of Vallejo's five largest unions."

"This proposal Mr. Brunk rejected, much to my surprise, as I had in mind his pretensions of good faith and interest in the cause, made on the previous evening."

cratic candidates are sincere they will withdraw their candidacy anyway. But when you consider the fact that the convention that nominated these Democratic candidates was in reality a Republican convention, I doubt Mr. Brunk's ability to pull all these candidates down. If they are pulled down it will be with the consent of the Republican machine who put them up and I believe that if these candidates are pulled down it will be owing to the fact that the Republican machine has a greater interest that will be served by what may be accomplished by the withdrawal of those candidates than by their remaining in the fight."

RALLY HELD AT ALVARADO

Republican Candidates Address
the Voters in the Country
Town.

Judge W. T. Harris, who has lived for the greater part of his life in the lower part of the county, was tendered an ovation at Alvarado last night at the Republican rally held there by the candidates. When the popular jurist took the platform to address the meeting, the residents in attendance in some instances stood on their feet and cheered, while the entire meeting for some moments continued to clap for the down-county lawyer and member of the bench now before the people for election. All of the candidates were well received and the addresses of the evening listened to with attention. The Elk's quartet and the brass band contributed to the occasion.

distal of his experience in the work. Mr. Fryck is the peace officer in all parts of this county and has been once county superintendent. "I do not know the younger generation here tonight, though there are a many little tots here whom I hope to know better. But you ask the older ones who know me if I did not make a good superintendent and ask them about me when I taught school over in Castro valley. I cannot, because of my duties as principal of one of Oakland's largest schools, be with you in your case-rooms during the day. So I must meet you and the good people of this neighborhood when I can. That is why I am here tonight and I hope you will support me."

A Few Facts About the Tribune.

THE TRIBUNE was the only evening paper in Oakland or San Francisco that gave a complete account of the dedication of the new State capitol of Pennsylvania and to print in full the address of President Roosevelt, which is destined to rank among the most noteworthy of his public speeches. In this connection we may, without boasting, remind our readers of the fact that THE TRIBUNE is today printing the largest and best evening paper on the Pacific Coast, one of the very best in the United States, to state the truth fairly. Last Saturday's issue consisted of twenty-two pages; Sunday morning we printed forty-four pages; Monday, sixteen; Tuesday, eighteen; Wednesday, twenty; Thursday, twenty. In news features and general completeness, THE TRIBUNE'S lead over its contemporaries is even more marked. We print more news and later news than any of our competitors in the evening field, while our mechanical facilities are not approached on either side of the bay. That is why THE TRIBUNE has more bona-fide subscribers than all the other Oakland papers put together.

Mr. Langdon says if there is any law for it he will put Pat Calhoun in jail for killing people with his United Railroads cars. If Mr. Langdon has to stop campaigning now to study law, we are afraid he will neither reach the Governor's chair nor put Pat Calhoun in jail.

Freddy Gebhardt has proved that he is still ready to take a chance. He has married a Floridiana girl.

Many Examples of Incivism.

The number of men who are not on the register is astonishing. They are met at every turn and in every walk of life. Some have been "too busy" to register, others deemed it too much trouble, while many neglected registration till it was too late. Still others were so dissatisfied with something or other that they voluntarily renounced the right of suffrage. The result is that thousands of citizens in Alameda county are disfranchised for the November election.

There is a discouraging side to this manifest indifference to the duties and obligations of citizenship. When men of property and education either decline deliberately to participate in the nomination and election of public officers or take so little interest in how and by whom they are governed that they neglect to register or inform themselves with regard to the time when registration closes, there is something wrong in the body politic. It is an evil sign when the exercise of the franchise is regarded as a bore and a waste of time. It is evidence of incivism of a most disheartening kind, for if men have no regard for the franchise as a duty and no respect for it as a privilege, they cease to be factors in popular government. They abdicate their citizenship and surrender themselves up to the political control of others, they know not whom.

Thousands of men in Alameda county have thrown away their opportunity to vote at the coming election for reasons that are either sordid or trivial. Mere indolence has kept many from the registration office. Yet it is a noteworthy fact that the men quickest to complain of abuses in administration and the loudest in voicing complaint are those who wholly neglect party organization, rarely vote at primaries and frequently fail to register and vote at general elections. They let others nominate and elect the officials and make the platforms, only reserving the right to howl when it is too late.

The kind of citizenship such men exemplify is about as effective in politics as an unloaded gun is in battle. They are of the same stripe as the business men who will not openly array themselves against a public abuse or an improper measure because it will "make them enemies and hurt their business." Oakland has more than her share of men who are afraid it will hurt their business to be good citizens.

Bell a Poor Handshaker.

We find this interesting paragraph in the Visalia Delta: "Alonzo Melville Doty shook hands with Theodore Bell, when the latter gentleman was in Visalia a few days ago. It was a cold, irresponsive shake. Mr. Bell takes hold of one's hand in a perfunctory sort of way, and the contact is not mesmeric. Moreover, as soon as he gives a spasmodic shake he tries to draw his hand away, just as a stingy man sneaks away from a place where men are spending money. A man who doesn't know any more about the art of shaking hands than Mr. Bell knows ought to keep out of politics."

This must be accepted as reliable for Alonzo Melville Doty is the editor of the Delta and composed the paragraph in his own pen writing. Mr. Doty is a poet. He is, nevertheless, a man of parts and penetration. Sometimes his antics and remarks are almost human. Among the class of gum-chewing females whose most profound exclamation of admiration is "Ain't you smart?" he is reckoned a humorist. He can beat any monkey in America talking, and is reputed to be even a greater philosopher than the educated hog that used to accompany a side-show attached to Sells' circus.

Mr. Doty distinguished himself a short time ago by raising the point that a man born in Kansas is disqualified for holding office in California. But he is original in other respects. He once accomplished the feat, having taken out a poetic license to do so, of making beans rhyme with thunder. Since then, however, he has pasted his license on a dog collar, and gone in for the study of graver problems. He is reported to be at work on a philosophic essay to be entitled, "The Effect of an Onion Diet on the Birthrate."

If the Democratic candidate for Governor had only known what a warm baby Mr. Doty is he would have given him a real lula hand-clasp, as it is, he has proved himself to be deficient in ability to grasp a glorious opportunity. Unfortunately he did not realize how immensely he honored himself in shaking hands with Alonzo Melville Doty. Nothing but skidoo for him now.

THE OAKLAND TRIBUNE would like to hear from readers of the paper. We want your ideas. Write a letter occasionally on some current event that interests you. Letters should be short—not over 250 words—and written on one side of the sheet. Don't be personally abusive; but state your facts and conclusions plainly, concisely and temperately.

Dr. Tisdale for Coroner.

There are many reasons why the Coroner of a large county like Alameda should be a physician. A physician alone is competent to decide when autopsies should be held, and a knowledge of medicine and surgery are essential in holding inquests where crime is suspected or known to have been committed, as the facts brought out in such examinations are often of great aid in bringing criminals to justice. For that reason the District Attorney and Sheriff recognize the advantage of having a physician in the office of Coroner.

Dr. Charles L. Tisdale, the Republican nominee, is a physician of high standing and long experience. He has been a practicing physician in Alameda city for twenty years; for seven years he has been the official physician of the County Jail, and has seen considerable service on lunacy commissions. His standing in the medical profession is attested by the fact that he is at the present time secretary of the State Board of Medical Examiners. He could hardly have a higher testimonial of professional ability.

Dr. Tisdale has been prominent socially and politically as well as professionally for many years. He has been a member of Oak Grove Lodge, F. and A. M., for twenty years, and is also a chapter Mason. He is also prominent in the order of Elks, being Leading Knight of Oakland Lodge, No. 171. He is popular and highly respected in the social and professional circles in which he moves.

One of Dr. Tisdale's warmest champions is Dr. H. B. Mehrmann, who has been Coroner for the past eight years and who competed with Dr. Tisdale for the Republican nomination. Dr. Mehrmann is a good loser as well as a good fighter, and he bears cheerful testimony to the worth and ability of Dr. Tisdale, who could have no better witness to his fitness for the office of Coroner. Dr. Mehrmann knows by experience what is needed in the office of Coroner, and he is frank to say that Dr. Tisdale fills the bill.

Under the circumstances there should be no doubt of Dr. Tisdale's election. He is the only physician running, and is so well qualified for the office that there is hardly the show of opposition.

Drive Out the Thugs and Thieves.

Desperate diseases require desperate remedies. A band of dangerous criminals infests both sides of the bay, operating alternately in San Francisco and Oakland. These villains are extraordinarily bold and ruthless, committing daring robberies on the principal thoroughfares and slaying without compunction all who stand in their way.

The criminal depredations must be stopped at all hazards. The police of Oakland should adopt stern and prompt measures to rid the city of the thugs and thieves who are terrorizing the inhabitants. A general round-up should be made of all unidentified persons without known occupation and visible means of support and compel them to give an account of themselves. All who fail to satisfy the police as to their character and respectability should be driven from the city or given long sentences for vagrancy. The town should be purged of loafers and hangers-on of bawdy houses, for it is from this class that the active criminal element is recruited.

There should be no half-way business about this matter, no standing on ceremony, no splitting of hairs over legal technicalities. Let the energy expended in breaking up fan-tan games in Chinatown be devoted to the more necessary purpose of making life and property safe. The correction of Chinese morals can wait temporarily while the police wage war on the desperate scoundrels who are assaulting, robbing and murdering people on the streets or in their homes and places of business.

COMPLAINS OF TELEGRAPH SERVICE.

EDITOR TRIBUNE: I saw an article in your paper a few days ago regarding the poor system employed by the telegraph company. I have had a little experience with the lax management myself lately. Last Tuesday evening at about 6 I received a telegram notifying me of my daughter's intended arrival on the train which reaches San Francisco at 10.30 p. m. We went over to the Southern Pacific depot at Third and Townsend, and then learned that there had been a wreck on the line somewhere and the train was not expected to arrive for several hours. We were obliged to return to Oakland, as the ferries do not run all night. I was very anxious and could not rest. The following afternoon I received a second telegram telling of the wreck and that my daughter would be here on the 2 10 p. m. The telegram was sent at 3.25 from her town and should have been received by me at least some time that evening. Instead I received it at 2 p. m. the following day. How is that for service? I felt sure there was a message and telephoned to the office of the telegraph company to inquire. They informed me that all messages for East Oakland were sent to the East Oakland office. When I called them up I found them closed for the night. Another instance. There is a young lady visiting me from the northern part of the State who sent me a message at 5 p. m. from Sacramento saying what time the following day she would arrive. I did not get the message until noon the day after it was sent. No one met the young lady, who had to find her way as best she could, a stranger in a strange city. And to add insult to injury, we have to pay to have the messages delivered. Perhaps if you publish this it may help to get better service for others.

CARD SHARP THRASHED. MIRROR IN HIS RING

PITTSBURG, Oct. 5.—Several leading Pittsburgh clubs, the members of which are said to have been robbed of more than \$1,000,000 within a year by card sharps incautiously admitted to membership, are excited over the most sensational of a dozen episodes of the kind at the Americus Club.

Dr. Joseph Johnston, who since his arrival here a year ago has been a popular member of three or four clubs, was dragged from the card table at the Americus, charged with cheating and taken to a police station.

Johnston, the police say, admitted the charge, and said that his only regret was that he had been caught.

He was forced by the police to give up diamonds valued at \$750, which he had taken from players at the card table for loans, and to restore hundreds of dollars which Frank Sauers said Johnston had won from him.

Johnston was today fined \$50 and costs, with a warning to settle up his business, if he had any, and leave town.

Johnston is alleged to be one of about ten card sharps who have been working fashionable Pittsburgh clubs, and is the fifth member of the Americus Club to be caught cheating at cards. He is the first, however, to be placed under arrest. The others were thrown out of the club bodily and threatened with arrest if they came back. Johnston came here, he said, from Kansas City.

The expose of last night, according to officers of the club and Sauers, who is a wealthy young Allegheny man, has been expected for some time. When Johnston was caught he had on a "marker" ring, and had in his pocket a "marker" and several other devices known to crooked gamblers.

The ring was an apparently innocent looking one, but when the third finger of the right hand. On the inner side of the ring, concealed in the palm of his hand, was a mirror about the size of a dime.

As Johnston dealt he could, by aid of the mirror, see just what his opponents were given, and with this knowledge had the other players at his mercy.

Sauers and others lost very heavily. Sauers borrowed on his diamonds, and everything else, until he happened to get a flash of the mirror, and then there was a light, which ended in the police station.

After he had been fined and had given back all the money he had won from Sauers, Johnston said to the officers and some members of the club, "I'm not the only one doing things with cards against you suckers in that club, and in others here. There's lots of them left."

This affair has brought to a head many similar scandals, and in all the clubs there is an expectation of further revelations.

The Americus is a semi-political club of professed Republican faith, and of many years' standing. It is frequently represented at conventions and other gatherings of the Republican party and is known all over the country for its striking uniforms and fine appearance in political parades.

NEGROES LOCKED IN BOX CAR THREE DAYS

BLOOMINGTON, Ill., Oct. 5.—Samuel and Fannie Mason, colored, brother and sister, living in Louisville, were rescued from a freight car in the Big Four yards in Kankakee county after being locked up for three days without food or water, having traveled a distance of 300 miles. The man is a cotton-picker and the woman a cook. They entered the car in Louisville planning to secure a ride to Cincinnati. They were unaware that the door of the car had been sealed and their efforts to attract attention were unavailing until the end of the third day. They were furnished with food and water and soon recovered from their unpleasant experience. The car was like a furnace, according to their statement, and they almost suffocated on account of the heat. The two were given assistance in getting back to their home.

UPPER SANDUSKY, Oct. 5.—Last

night the baggage-master of the eighteen-hour Pennsylvania train, attracted by a rattling discovered a man hanging to the vestibule door of the first coach. The train stopped here and the man was released from his perilous position after a thrilling ride of over 100 miles. He was a colored man, the name of Dr. Wayne and had stopped on Dr. Wayne's car, not knowing that the next regular stop was 120 miles away.

MISS CLARA CLEMENS.

NEED OF EXERCISE AMONG ALL GIRLS

Walk More and Ride Only When You Have to, Is Woman's Advice.

By JESSIE H. BANCROFT, Assistant Director of Physical Training in the New York Public Schools.

The violent change from the outdoor life of a summer vacation to the restrictions of city living brings forcibly to mind at this season the question of physical exercise, and for no class is this more difficult of solution than for girls. The typical American girl of today, the girl who figures most largely in art and fiction, is distinctively of what the psychologists call the motor type, and needs not so much to be urged to physical exercise as to be given opportunity for it, and to have her exercise wisely selected and directed. What kinds of exercise are possible in the city, and what kinds are best?

For the fall days especially one turns to outdoor exercise. Park and playground facilities, particularly for such games as tennis and basket ball, are always crowded, and yet perseverance often discovers room for one more team. Many private schools have their own athletic grounds, of which a larger number of girls might well take advantage. The outdoor yards and roof playgrounds of many public school buildings are unused many days after school, in contrast to others in which every afternoon finds a team at play under the direction of principal or teacher.

In one back yard in the residence section of the city a group of girls has for some years played basket ball regularly twice a week, with a physical training instructor to coach the game. Many a yard would lend itself to such usage. In Boston several mothers clubbed together some time ago to secure regularly for their little girls the playing of active games. The grounds of one in the suburbs were the meeting place, and twice a week the group of fifteen met there with a teacher for fox and farmer, prisoner's base, old traditional games such as mulberry bush and London bridge for relay races, and many others. These games are among the most natural and happy forms of exercise; yet there is no form that is more ruthlessly exterminated by city conditions unless fostered in some such way.

The public schools, through the use of these games at recess periods, are doing much not only for the physical and mental welfare of the children, but in saving to them one fruitful source of childish happiness. For older boys and girls there are large numbers of active games also, and in almost every gymnasium games are used for both children and adults to supplement gymnastic work.

Competitive sports, such as tennis and basket ball, are not suited to every one. The girl of weak, nervous constitution, who is very excitable and easily overtaxed, should not go upon a team which might be admirable for the energies of her robust sister or afford thorough mental recreation to the studious girl of strong constitution. The trend of opinion among physical trainers is that inter-school competition is too strenuous for any girl, leading, as it does, to a degree of excitement that often results in hysteria. Competition between classes of the same school or between any teams where the strain is not excessive is an excellent element and adds much to the interest and zest of the play.

Not enough is made of walking. The street-car habit binds us to the possibilities and desirability of walking as an outdoor exercise. As we weaken our eyes in cities by depriving them of distance, so we lose our endurance in that fundamental source of health and pleasure, walking, by resorting always to rapid transit. The average city girl or woman who goes to the country joins a porch contingent and thinks she has done marvels if she takes one walk through the season of three or five miles in length. One slight, little English woman recently walked from the Heights in Brooklyn to West Eighty-fifth street in New York and back again. It would be hard to find many women, or even men, in New York who could parallel this. Yet the beauty and interest of the city and its suburbs can be fully appreciated in no other way.

The long perspective of city streets, the glow of color in its brick buildings, the blue haze of distance, and the varied sky lines become particularly impressive in this way. The historic landmarks of the city were recently traced by at least one tramping club that found both the walk and the history a great pleasure and benefit. The outlines of the old Dutch settlement, of old Greenwich village and old Chelsea; the scene of the battle of Harlem Heights, Washington's retreat through Westchester—all of this and much more give vivid interest to a walk. The suburbs in New Jersey, Westchester and Long Island offer most interesting tramps for the lover of nature and of history. Any group of girls that wishes to form a tramping club for the fall will doubtless find without trouble a teacher or parent who will be more than glad to act as guide and chaperon.

WOMEN, WRITE TO THE TRIBUNE

THE TRIBUNE INVITES ITS WOMEN READERS TO WRITE SHORT ARTICLES ON SUBJECTS OF COMMON INTEREST TO WOMEN FOR THIS PAGE. LETTERS SHOULD BE WRITTEN ON ONE SIDE OF THE PAPER ONLY AND MUST BE SIGNED BY THE WRITER'S NAME, WITH ADDRESS ATTACHED, NOT NECESSARILY FOR PUBLICATION, BUT SIMPLY AS AN EVIDENCE OF GOOD FAITH. IF YOU SEE ANYTHING ON THIS PAGE CONCERNING WOMEN WITH WHICH YOU DO NOT AGREE WRITE TO THE EDITOR OF THE WOMAN'S PAGE OF THE TRIBUNE

WOMAN'S VIEWS ABOUT DIVORCE

EDITOR TRIBUNE—Dear Sir: Our kind and efficient clergy, through their desire to promote the greatest good to the greatest number of people, have set about to tighten the divorce laws to such an extent that only the causes which are almost impossible to prove shall be recognized as legal grounds for separation.

Could our worthy advisers sample some of the medicine they are dealing out to others they might change their views, as there is no teacher quite so efficient as experience. Most marriages are entered into with purely honest intentions, but in many cases the parties awake to the horrible realization that each has not drawn its other half, its affinity or soul mate. In such a case, which is the greater evil, to live this short life in a state of constant longing and desire for love and congeniality, burning one's very life away, crushing all the good there is in one, or to seek the annulment of that which was a mistake, which would place both parties in a position to perhaps realize their fondest hopes?

MRS. NORA CULP.

MARRIES GIRL WHO NURSES HIM.

NEW YORK, Oct. 5.—Charles T. Halliwell, first vice-president of the American Tobacco Company, was married at All Angels Church, this city, Wednesday to Miss Ruth Alice Cole, a trained nurse. The groom is estimated to be worth \$20,000,000 and is forty-nine years old. The bride is thirty-five years old and handsome.

Until recently Halliwell had been ill for over a year, and submitted to an operation. During his illness Miss Cole has been his nurse. On re-

SEVEN HUSBANDS WOMAN'S RECORD

DETROIT, Oct. 5.—Seven husbands all living and undivorced have legal claims upon Mrs. Hannah Chaffee, it is alleged, in the confession of her daughter, Mrs. Emily Sherman of Pontiac.

Mrs. Chaffee is 76 years old and was married recently to Francis M. Chaffee. She transferred to her, and her husband, declaring the transfer without consideration, started a suit in court to have the deed set aside.

REJECTS MANY MEN OF TITLE, FINALLY WON

Miss Madeline Ives Goddard, the only daughter of Colonel and Mrs. Robert H. I. Goddard, was recently betrothed to the Marquis René d'Aubigne, a French nobleman. She has rejected many titled suitors, including a prince. The young woman is a cousin of Mrs. C. Oliver Iselin, a famous society yachtwoman.

LOVERS' LOGIC

"Can your Susie cook?"
I asked of Jack.
"Did you ever," says he,
"See hair so black?"

"Can she save your coin?"
Can she run a flat?"
"Isn't she just too sweet,"
Says he, "in that hat?"

"Can she sweep and dust?"
Can she darn your socks?"
"Don't you think," says he,
"She picks flossy frocks?"

"Is her temper mild?"
Is she kind and sweet?"
"Have you ever," says he,
"Seen such tiny feet?"

FR-R-ROZEN FACES IN IDORA'S CHORUS?

No! No! Says Ferris Hartman by Proxy; Girls Smile, Except at Mashers.

Editor TRIBUNE—It seems that even against my best judgment and inclination, I am almost forced to make some answer to the various letters that have appeared in THE TRIBUNE the last few days on account of some unknown "M. M. C." finding fault with the Idora park chorus, because they refuse to smile.

The first letter was answered by "A Chorus Girl," who passed it up to a "Star." Some "Star" answered it by passing it up to me, the Stage Manager. In fact, all three communications insinuated that I was the guilty party. I have been accused of doing everything, from making it a capital offense for a chorus girl to smile, up to cutting out some of my own songs to the great annoyance of a "Distinguished Englishman."

As my time is pretty well taken up with other matters, without entering into a newspaper controversy which I am not familiar with, I will have to be brief.

BY A MASHER.

The first letter was not written by a woman, as it appeared, but by some would-be "masher" who is only too common at all Comic Operas. The chorus girls look into the faces of that sort of thing, night after night. They soon learn to distinguish between the honest look of admiration or interest of a lady or a gentleman and that of a leer of a rouser. The chorus without any instruction from its stage manager generally learns how to manage that kind of an individual. A set smile or one forced or regulated by an order from me would be ridiculous. A smile without mirth or reason is even worse than a "frozen face."

FOR HE WANTS IT.

Your correspondent is so anxious to receive the smile of one or all of our chorus, which, in ability, is the equal of anything that ever appeared in Oakland, and in appearance the superior, I would advise him first to retire to the privacy of his own room and commune with himself. Let him consult his own mirror and when he himself thinks he can deliver a smile of pure friendliness and appreciation of good work, I will guarantee that he will be looking into no frozen face, but that he will receive a smile of welcome and gratitude that will repay him for all the rest. I have referred to the first letter, for the other two must have been a joke, for we have no "chorus girl" or "star," but what understands the situation.

SO SORRY, SO SORRY.

As for myself, I am sorry I disappointed the "Distinguished Englishman" by cutting one of my songs. To an ordinary Englishman it would have made no difference but I do not want to offend any "Distinguished English-

man" for I still have a little love for the Mother Country.

When it comes to frozen faces, I wonder if the public ever realize what we have to contend with in the way of frozen faces, how we have to smile and sing and dance to rows of people, night after night, who never show any appreciation or who never give any applause or any sign of pleasure?

Why I—(Excuse me, I am getting into a subject that has been fought out years ago.)

FERRIS HARTMAN.

P. S.—I have signed Mr. Hartman's name to the foregoing without his knowledge and without his consent. On account of his loss of voice, he is unable to speak for himself. I am sorry that I could not have consulted him before writing it, for from his experience, he could have probably proven to you where I only assert, that poor performances could be made good and good performances made better, if the public would only assist by a little sympathy and appreciation. By the way, this is a good investment, not only for the theater, but in everything else.

THIS IS NO FAIRY TALE.

Editor TRIBUNE—Having taken an interest in the "frozen face" controversy in your valuable paper and being a friend of Ferris Hartman I deem it my duty to make a reply to certain insinuations against him because under the circumstances he is estopped from making a defense.

Your various correspondents are all wrong in their conclusions.

The chorus girls as a matter of fact do not have "frozen faces." Hartman's face is all right. Fogarty, Cunningham, and Weiner are really as good as they look. In fact everything is lovely on Idora stage—that is when you get over the footlights and see it from that point of view.

The trouble has been that the audience gets the reflection on the stage characters from the "frozen faces" of Paul Steindorf and his German band. That's the secret of the whole situation. The chorus girls are all right; Hartman is all right; everybody now wears a smile, even Jimmy Pilling the "watch dog" of the treasury. Happy Hartman has given up the task of looking for the "frozen faced" chorus girls.

And this is no fairy tale.

WINFIELD JOHNSON.

PORTLAND BUMPED

BY ANGELS

LOS ANGELES, Oct. 4.—Bergman, the Los Angeles track pioneer, who has been ill and off duty, returned to the track yesterday and gave a remarkable exhibition of fast twisting, smothering out Portland for nine lengths. Owen was killed over the field by Lee Angles, and MacCretie, who was brought in from a tight field to relieve him, was battered for time. In all nine hills were made off the path, and the Angles scored the run.

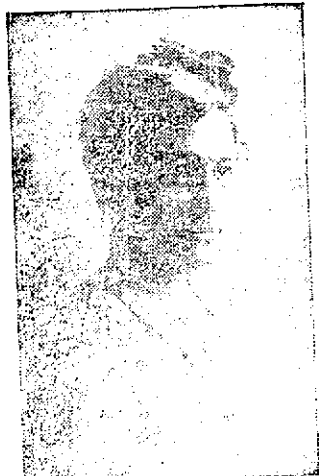

EMMA STEPPHANY.

PRETTY GIRL, STILL IN HER TEENS, ACCUSED OF KILLING SWEETHEART

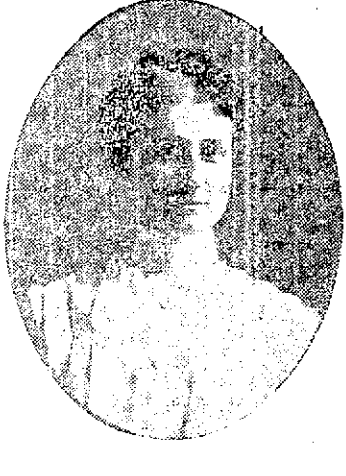

Emma Stepphany, the Pennsylvania girl still in her teens, whose trial for the murder of her sweetheart, James W. Frizzell, on the night of July 3 has begun at Pottsville, Pa. Miss Stepphany's case has attracted great attention all over the United States, not only on account of her youth, refinement and social position, but also because the police who have been working on the case believe that there is some deep mystery connected with the crime that has not been solved. It is the general opinion, although Miss Stepphany is the self-confessed murderer, that she did not commit the crime, but that the deed was done by some one who she is shielding, even at the risk of her life. Sensational developments are promised at the trial, as it is expected that the young woman, if convicted, will break down and reveal the real murderer.

PLAN AHEAD FOR VICTORY

Berkeley High School Athletics Certain of Winning Field Meet.

BERKELEY, Oct. 5.—A band of thirty pieces will keep the enthusiasm of the Berkeley High school rosters at a high pitch at the bay counties field meet on Saturday afternoon. The Berkeley High school boys expect and hope to win the field meet and have planned their celebration ahead of time.

The band, which was only recently organized, is the only high school band in the West. It is led by Masterman. Although about a dozen high schools will enter the meet tomorrow, there are really only three competitors for first place—Berkeley, Oakland and Rich. All the other high schools of the bay counties league have long since abandoned all hope of getting anything more than third or fourth place.

Berkeley High has the strongest relay team, Chas. E. Edwards is expected to win the low hurdles, and Cal Holmes has a strong chance of winning first place in both the 440-yard run and the 800-yard run.

Harold is expected to win points in the shot-put and the high jump. Murray, who holds the two-mile record, will probably lower his record to 10 minutes and 40 seconds.

WOMEN SHAKE HANDS AFTER TRIAL ENDS
ALAMEDA, Oct. 5.—Mrs. Maudel Moffatt was yesterday found guilty of battery on Mrs. Julia Campbell and sentenced to prison for six months. The trial was before Judge Cope. The women are both staying at the home of Mrs. Spink, 1111 Lincoln avenue, and Sunday Mrs. Moffatt discolored the eye of Mrs. Campbell because she heard the latter was saying mean things about her. The women made up their differences and left the courtroom after shaking hands.

DEATH NEAR IN HIGH WIND

Painter Nearly Blown From Roof of Bungalow—Saved by Fellow Workmen.

ALAMEDA, Oct. 5.—While painting a building at the corner of Union street and Fourth avenue yesterday afternoon, James Whalen was almost blown to the ground, the indirect cause being the high wind which prevailed at the time. He was working on the roof of a house near a long ladder reaching from the ground high above the roof. The wind suddenly carried the ladder to the side and as it fell Whalen was struck. He was knocked from his seat and slid along the roof to the eaves, which he grabbed, hanging by one hand and trying to get a footing on some projection. Whalen called for help. Fellow-workmen rushed to the front of the house, and realizing that the man could not long hold his precarious position, raised a ladder. Whalen landed on the ground, a second later, more frightened than injured.

PERSONAL NOTES OF THE COLLEGE TOWN

BERKELEY, Oct. 5.—George Trueblood was a recent visitor in Alameda. Will Condit was a visitor recently with friends in Napa. W. B. McDuffie of Santa Barbara is visiting with his son in this city. Mr. and Mrs. Charles Sherman were visitors last Sunday with W. E. Fossett and family in Concord. Miss Ada Huxley has returned from a week's visit with her parents, Mr. and Mrs. William Harvey, in Fresno. Mr. and Mrs. M. Hochstetler and Mrs. Wright have returned from a visit with friends in Wilkes. Mr. and Mrs. J. C. Martin of this city, who are making a tour of Southern California, are now visiting Mrs. Pratt at Santa Barbara. During Professor Henry Morse Stephens' visit in Southern California last week he was the guest of Mrs. George Edwards and Mr. and Mrs. Charles Edwards at Santa Barbara.

ARGUES FOR DORMITORIES

Editor of Student Daily Says They are Needed to Foster College Spirit.

BERKELEY, Oct. 5.—A plea for dormitories at the University of California is made the subject of an editorial in the student daily this morning. The editor of the college paper claims that a dormitory is more needed than a hall of music or any other addition to the university buildings that the moneyed friends of the university have in mind. The editorial follows:

"Nearly all members of the University, probably a few exceptions, rejoice to see the growth of college spirit and loyalty which has taken place in the last ten years. The University of California has an abundance of spirit and student enthusiasm, considering the conditions under which the institution at present is laboring. The students are not thrown together enough; there is not enough time for college activities and the minds of the students are not centered on any one thing at the same time. Senior Hall, North Hall steps and men's mass meetings to a great extent overcome many of these obstacles. But the University of California will never reach any high degree of college spirit until it has dormitories. To most of our moneyed friends and to the State Legislature a hall of music, of botany, of Philosophy or some other building of learning is of more importance than a place to house the students. We do not think so. Dormitories should be the next in order. Two large buildings on the campus, housing four hundred students each, all eating in a college commons and being constantly together, would do wonders for the loyalty and spirit of this institution. "Besides the fact that the dormitory system would solve the problem of college spirit, it is essential for another reason. The town of Berkeley is becoming so prosperous that the town people are able to pay higher rents for rooms than students and the students in order to get rooms must pay in some cases exorbitant prices. At the beginning of this term there was trouble in finding sufficient and proper places for the students to reside. This problem of obtaining dormitories can to a great extent be solved by the students themselves. If the students of the university would let the public know how strongly they feel the need of a dormitory system the State or some more or less fortunate financier might come through. This is a good subject to discuss at a men's mass meeting."

SMALL BOYS TOOK HANGING BASKETS
ALAMEDA, Oct. 5.—Mrs. S. Jacobs has recovered the three hanging baskets which were stolen from her residence on Tuesday. The police, after visiting the Jacobs home at 1815 Pacific avenue, came to the conclusion that the theft had been made by some person in the neighborhood and after a search located the baskets hidden in the cellar of a nearby home. They had been taken by three small boys.

SOUTHERN PACIFIC EMPLOYEE DEAD
ALAMEDA, Oct. 5.—James Hoover, for many years a resident of this city, died Wednesday in Sacramento, where he had been taken to the Railroad Hospital. Hoover is survived by a widow, four daughters and a son. He was a native of Illinois and was 74 years of age. He was in the employ of the Southern Pacific Company in this city.

GRASS FIRE STARTED BY CHILDREN AT PLAY
ALAMEDA, Oct. 5.—Two small grass fires were extinguished yesterday by the chemical engine at the West End. The fires were at the corner of Lincoln avenue and Haight street and were started by children playing with matches.

MISS HOFFFIELD WILL COACH CLASS PLAY
ALAMEDA, Oct. 5.—The senior class at the High school has selected Miss Rose Hafford as the coach for the class play to be given next month. The play is a "Modern Cinderella," a musical comedy in four acts.

500 NEW VOTERS IN SOLANO COUNTY
VALLEJO, Oct. 5.—Reports from the office of County Clerk G. Halliday show that there has been an increase of more than 500 in the registered voters of Solano county. Vallejo has made the greatest gain and Benicia and Suisun have come well, while the great wheat raising belt in north and eastern Solano county has lost slightly. The total vote now registered is 6542.

Words of Cheer From Workers All Over State.

BERKELEY, Oct. 5.—With prayers and song and with an address of welcome by Dr. S. D. Hutsinpiiler, the tenth annual State convention of the King's Daughters was opened this morning in the Trinity Methodist church, at the corner of Ellsworth street and Alston Way. Dr. Hutsinpiiler said in part:

"The King's Daughters can do just as they please with Berkeley for the next two days. Berkeley is theirs for today and tomorrow. We bid you greetings. You bring glad tidings from the far corners of the State."

Mrs. W. B. Ashland followed Dr. Hutsinpiiler with "Berkeley's greetings," and a vocal solo was rendered by Mrs. Thomas Hodge of "Ever Ready Circle."

MERCHANTS IN COLLEGE TOWN

Hold Meeting and Discuss Affairs of Interest to the University City.

BERKELEY, Oct. 5.—The secretary of the Chamber of Commerce was instructed at the meeting of the Chamber held last night to request the Southern Pacific and Santa Fe railroads to provide better freight facilities and larger yards in West Berkeley. A communication was received from the Oakland Traction Company in answer to a request made of the company some time ago for better service on University avenue, to the effect that the company would establish a five-minute schedule on that line as soon as thirty cars now on the way arrived at the barns.

The Chamber endorsed a petition that is being circulated by Dr. Lyman Allen asking the board of town trustees to amend the building ordinance so that certain classes of houses, such as bungalows, could be erected without studding. The secretary reported that the telephone company had sent a bill to the Chamber for \$18. It was asked if the telephone company had not made an offer to furnish a telephone to the Chamber. It was found that such an offer had been made by the telephone company but had been declined by the chamber on the ground that it desired to put itself under obligation to any corporation. The secretary was ordered to address a communication to the telephone company saying that the Chamber of Commerce was now in a receptive mood. P. H. Scullian, the general secretary of the National Industrial Association, appeared before the Chamber and asked that the Chamber endorse the movement for the arbitration of industrial troubles that is being made by the association. Every member of the Chamber present signed his name to the membership roll of the Alameda county branch of the association.

PLOWS UP CEMETERY; WOMAN BRINGS SUIT

KELSO, Oct. 5.—The desecration of a cemetery in which are said to be buried the father and mother of William J. Bryan, at Bearssden, in Mahoning county is the cause of a lawsuit which started today. Mary Herron sues George W. Ryder, who is alleged to have plowed up the cemetery after he bought it. The Ross and other families have been buried there since 1872. Headstones were used by the new owner for walks. Bryan, in 1896, attempted to locate his parents' graves there.

VALLEJO WILL SEE WARSHIP

Wisconsin Will Put Into Yard for Minor Repairs Before Going North.

VALLEJO, Oct. 5.—There was rejoicing in Vallejo today when it was learned that Captain Franklin Drake of the battleship Wisconsin has sent word to this yard that he will bring the vessel to Mare Island for minor repairs, before the big craft proceeds to the Bremerton yard, where she will go out of commission for extensive repairs. Vallejo people and the naval officers of Mare Island have long contended that any sized ship in the American navy could come to this yard, but the friends of the Bremerton yard have always argued that it would be unsafe to bring a big ship here as she might run aground in the San Pablo channel.

Captain Drake was formerly captain of the Mare Island navy yard and is thoroughly familiar with conditions here. The Wisconsin will be the first of the larger modern crafts to visit this yard.

HE SPEAKS ON RIVAL CAMPUS

Prof. Bacon of Berkeley Addresses Stanford Men on Old Days at Yale.

STANFORD UNIVERSITY, Oct. 5.—One thousand students of Stanford University listened to Professor Thomas R. Bacon in the history department of the University of California today and applauded the address. The undergraduates recognized in the speaker of the day the professor of the blue and gold who has been made the butt of one of Stanford's most popular student songs. This song, however, did not echo at the gathering, as the executive ban had been placed upon the songsters.

Professor Bacon told the students of his experiences at Yale thirty-five years ago. Dr. Bacon cited the difference between the old system of control at Yale and the methods now in vogue. The time-honored practice of morning chapel services, which are still attended by all students of Old Eli, he attributed to the idea the undergraduates of Yale have that the athletic prowess of the blue is directly responsible to the practice.

"CYCLONE" AND HYLAND ARE SIGNED

"Cyclone" Johnny Thompson and Fighting Dick Hyland have signed their names to a piece of paper that means a fight at Colma Tuesday night, October 16. There was no delay in coming to terms, no quibbling over this and that, when Sammy McClintock, who looks after Hyland's interests, and H. E. Westgate, manager for Thompson, met yesterday morning with Roche. McClintock stood out for the fighters' share, of 50 per cent of the splits, to go to the winner, but changed his mind when he saw that the arrangement would not go, and the winner will take 75, while the loser will be entitled to 25 per cent.

THE DISCOVERER

Of Lydia E. Pinkham's Vegetable Compound, the Great Woman's Remedy for Woman's Ills.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles or such hosts of grateful friends as has Lydia E. Pinkham's Vegetable Compound. It will entirely cure the worst forms of Female Complaints, Infestation and Ulceration, Falling and Displacement, and consequent Spinal Weakness, and is especially adapted to the Change of Life. It has cured more cases of Backache and Local Weakness than any other remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels tumors in an early stage of development. Irregular, Suppressed or Painful Periods, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility quickly yield to it. Deranged organs, causing pain, weight and backache, instantly relieved and permanently cured by its use. Under all circumstances it dissolves the female system. It quickly removes that bearing-down feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, dizziness, faintness, sleeplessness, flatulency, melancholy or the "blues" and headache. These are sure indications of Female Weakness, or some derangement of the organs, which this medicine surely cures. Chronic Kidney Complaints and Backache, of either sex, the Vegetable Compound cures. Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse a substitute.

**NEW GENERAL
MUST RESIGN**
Old Soldier of Kansas Commis-
sioned by Palma is Re-
moved by Taft.

WICHITA, Kans., Oct. 5.—C. A.
Mosher of Wichita received a commission
as a general in the Cuban Army Wednes-
day and the next day he was asked to
resign. His commission came directly
from President Palma. He had in mind
to raise a regiment of rough riders sim-
ilar to the one led by Theodore Roosevelt
in 1898. In replying Mr. Palma sent him
a commission as a general, dating the
commission back three months.

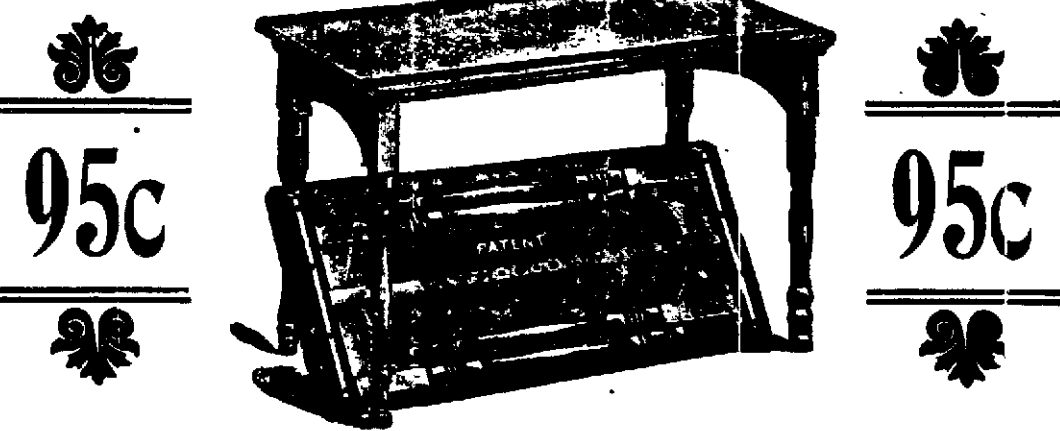

When Secretary Taft arrived in Ha-
vana Mosher was asked to resign and
return the contract sent to him by the
Cuban government. In the same letter
a draft was sent to him for his salary
as a Cuban general since the date of his
commission.

Folding Sewing Tables for 95c

NO TELEPHONE ORDERS NONE DELIVERED

Folks will wonder when they see this table how we can sell them for 95 cents. It's made of select hardwood and well finished in the natural light color. The top measures 18 inches across and is 36 inches long with the ins. enamelled in plain black figures. It's solidly braced and when not in use can be folded up and put out of the way. It's a table that sells every day for \$1.75 but we are determined to keep these specials under the dollar mark. Now, ladies, if you haven't a sewing table, this is your chance. Saturday from 5 to 9 p. m., if they last, 95c each. One to a customer.

We advise early shopping. Sale begins at 5 p. m. Come early. Have a seat and rest awhile, then look around the store.

SIX STEAMERS ARE CHARTERED

New Boats to be Employed by
U. S. Government as Long
as Necessary.

NEW YORK, Oct. 5.—Six steamers be-
longing to the Ward Line have been
chartered by the United States govern-
ment to go to Newport News, Va., to
take on troops and army supplies for
Cuba. The City of Washington left yester-
day afternoon and the following boats
are scheduled to sail today: Niagara,
Seneca, Monterey, Antilla and Bavaria.
Secretary Smith of the Ward Line was
unable to say yesterday how long the
boats would be in use by the govern-
ment, as the charter merely stipulated
that they were to be employed as long

IT IS UP TO CITY OFFICIALS

Company Willing to Furnish
Light on Moonlight
Nights.

412 Sixty-fifth street, Oakland,
Oct. 3d, 1906.
Mayor Mott, City Hall, Oakland, Cal.
Dear Sir: As a resident and property
owner of this city, would you kindly
let me know why it is that for the last
four or five nights the streets of this
city have been in darkness, at least
that portion of the town in the vicinity
of Telegraph avenue and Alcatraz.
One might stand on this corner for the
last few nights as stated above and
easily imagine he was on a prairie for
all the assistance the electric lights
might be to him. It is because there
has been a full moon for the last few
evenings that the light company has
extinguished its lights? Did you find
this to be the case in any of the East-
ern cities which you had the pleasure
of visiting recently? The conditions
that exist in Oakland today one
might expect to find in some small
Western mining town, but not in a city
that can boast 225,000 people. Having
an interest in this city, I have a right
to know who is getting the credit for
suffering from the poor lighting of the
streets of Oakland. The city officials
talk of checking the carnival of crime
that is now reigning in the city, but
how do you expect to do this? By ex-
tinguishing the electric lights? Not
only this, done in this part of the
city, but speaking from personal ob-
servation I may say that although I
have resided in this section of the city
for over six months, I have not seen
a policeman anywhere in this vicinity
night or day and I am on the streets
the greater part of my time.
I am an Easterner and came to Cal-
ifornia about two years ago and can-
not but help notice these impositions
on the people. The taxes are nearly
triple here to what they are in the
city from which I came, which city has
a population of over 250,000 people.
The water rates are about five times as
high and almost everything else in
proportion, and yet we are confronted
by such conditions as exist in Oakland
today.
Why do the city officials talk about
driving the footpads and other crimi-
nals from Oakland? It is action we
want—not talk. We are the tax-payers
and we should demand protection. If
sufficient electric lights were placed on
the streets of the city and those streets
properly patrolled, the criminal element
would be very soon driven out of such
an extent that a person would not
find any great danger in traversing the
streets at any hour of the night. The
streets of this city are NOT properly
lighted, and until that is done not
even an increased police force can ef-
fectually cope with the criminal ele-
ment which seems to have entered
among us since the disaster.
A city the size of Oakland can afford
and should have at every corner an elec-
tric light. Where do the houses gener-
ally occur? On well-lighted corners?
On Broadway between Seventh and
Fourteenth? No. They occur on some
poorly lighted street—electric light com-
pany lights are three or four or probably
six blocks apart. It is reasonable to sup-
pose that not one nightman would be
needed to hold a person up under the
glare of an arc light. Then why is it
the ment hat are at the head of munici-
pal affairs do not take steps to see that
the streets are properly lighted. It is
as cheap in the long run, if not cheaper.
Oakland would not require so much jail
space and it necessary to look after so
many prisoners, for they would be
driven out of the city and, most im-
portant of all, a great deal of crime
would thus be prevented.
Therefore, it is not a question as to
what the city officials should do. They
know what to do as well as the people
know, and they act at once.
Yours very truly,
A. P. BEAM.

DISMISSED IN STINGING NOTES

Maestretti Ousted Summarily
From Board of Works by
Jim Gallagher.

As forecasted in THE TRIBUNE,
Maestretti has been dismissed
from his position as Commissioner of the
Board of Works in San Francisco. The
dismissal was accomplished in stinging
letters from James Gallagher, acting
Mayor. Maestretti was not in the city to
receive the letters in person. They read:
"P. A. Maestretti, Esq., Commissioner
and Member of the Board of Public Works
of the City and County of San Francisco.
—Sir: The ineffectiveness of the work of
the Board of Public Works under your
control and direction as president during
the past year, and especially since the
Mayor's election, has been so apparent
that it has evoked much adverse notice
and criticism on the part of the press and
the public generally. Your lamentable
failure even to clear the streets and side-
walks of the important sections of the
city of the debris which has littered them
for more than five months has caused
much commiseration and is entirely inexcu-
sable. The same may be said of many
other branches of the work of your de-
partment.
"Therefore, pursuant to the provisions
of sections 18 and 20 of article XVI of
the charter of the city and county of San
Francisco, you are hereby removed from
the office of Commissioner of the Board
of Public Works of the city and county
of San Francisco, for cause, as specified
and stated in notice to him of such re-
moval herewith attached and made a part
hereof."
JAMES GALLAGHER,
Mayor of the City and County of San
Francisco. Dated at San Francisco,
Cal., October 4, 1906.
"To the Board of Supervisors of the
City and County of San Francisco: Purs-
uant to the provisions of sections 18 and
20 of article XVI of the charter of the
City and County of San Francisco, I hereby
notify you that I have this day re-
moved P. A. Maestretti from the office of
Commissioner and member of the Board
of Public Works of the City and County
of San Francisco, for cause, as specified
and stated in notice to him of such re-
moval herewith attached and made a part
hereof."

BEAR INVADDED HOUSE OF RANCHER; KILLED

VANCOUVER, Oct. 5.—A lucky
shot in the dark saved Thomas Allen of

Revelstoke from being food for a bear. Allen was staying with his brother at the latter's ranch at Eagle Pass. About 3 a. m. he was awakened by the door being opened. On getting up he was astonished to see an enormous brown bear standing about six feet away. Reaching for his rifle, Allen fired, the bullet penetrating the animal's breast and breaking its back. There were no more cartridges in the house and the wounded bear lay in the doorway, tearing everything to pieces within reach of its paws.
At daybreak Allen crawled through the window of his bedroom and ran to William MacKay's house, about a mile away, got another rifle and killed the bear. It was fortunate the first shot in the dark was so effective. Had it not broken the bear's back and prevented its walking, Allen would have been the victim.
Hunter ended his life with a shot from a revolver, while Beatty swallowed pheasant. Hunter was dead when his mother found him, but Beatty was still alive when his wife reached his side. He died a few moments later.
The two men had been almost inseparable companions for many years. For some time Hunter had been ill, while Beatty had been drinking heavily. It is noted that they agreed last night to live together.

Carter's Little Liver Pills are very small and very easy to take. One or two pills makes a difference. They are strictly vegetable and do not grip or purge, but by their gentle action place the liver and regulate the bowels. Even if they are cured.
Sick headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they are cured.
Ache they would be almost a relief to those who suffer from this distressing complaint, but unfortunately their goodness does not extend here, and those who suffer from it will find these pills invaluable in so many ways that they will not be unwilling to do without them.
